

pureBliss
A Gift to Good Living

pureBliss is inspired to bring nature's best ingredients from their purest form, to revitalize your body and provide you a blissful life.

One of the proprietary key actives in our products is Seaberry (a.k.a Sea Buckthorn).

The discovery of this miraculous plant was first monumented in ancient Greek circa 300 A.C. Grown at 15,000 ft above sea level at the Tibetan Plateau, these ancient holy fruits produce intensely nutritious berries like the golden jewels. Due to its high altitude, **pureBliss Seaberry** contains the highest bioactive substance compared to other sources, making it one of the most important sources for vitality, health and beauty.
